PROFESSIONAL SUMMARY

PhD Scientist turned to product lead with 15+ years of experience bridging the gap between high-dimensional omics and AI-driven drug discovery. Expert in leveraging Python, R, and LLM (Llama, Gemini and Claude) to automate complex biocuration and accelerate data-driven decision-making. A results-oriented professional with a proven track record of delivering scalable biomarker discovery and leading cross-functional teams to translate complex omics research into high-impact digital assets.

EXPERIENCE

Domain Expert

Persistent Systems · Pune, India

- Leveraging clinical and multi-omics data to drive patient-centric healthcare analytics and precision medicine engagements

Product Manager I — Growth

Partex.AI (formerly Innoplexus Consulting Pvt. Ltd.) · Pune, India

- Leading an effort to develop biomarker module for omics data
- Data extraction task from external databases using Llama and Gemini models
- Architected and integrated biomarker feature into propriatry modules to enhance the predictive capabilities of the organizational platform
- Python scripting for automating biocuration
- Collaboration with data engineers and data scientists

Associate Scientific Manager

Innoplexus Consulting Pvt. Ltd. · Pune, India

- Data curation for AI/ML drug discovery and development modules in agile environment

Associate Biomedical Scientist

Cedars-Sinai Precision Biomarker Laboratories · Los Angeles, USA

- Applied mass spectrometry-based proteomics to study proteome complexity
- Presented research findings to internal teams and external clients

Postdoctoral Researcher

University of Southern Denmark · Odense, Denmark

- Built PTM-specific (Cys, N-glyco, phospho) biomarker discovery platform for disease diagnosis
- Large-scale PTMomics analysis; mentored PhD students and technicians

Postdoctoral Researcher

Turku Bioscience · Turku, Finland

- Serum proteomics for T1 diabetes & carotid atherosclerosis; interactomics experiments
- Designed and delivered practical courses on proteomics data analysis

Project Assistant

National Chemical Laboratory · Pune, India

- Proteomics lab work: protein extraction, SDS-PAGE, MS analysis of glycated proteins

EDUCATION & TEACHING

PhD, Medical Microbiology & Immunology

University of Turku, Finland

Thesis: Serum proteomics to detect early changes in type 1 diabetes and carotid atherosclerosis

2012 – 2018

Masters, Pharmaceutical Chemistry

Rajasthan University of Health Sciences, India

2005 – 2009

Lecturer — Pharmaceutical Biochemistry & Analysis

JSPMS JSCOPR, University of Pune, India

2008 – 2009
